

### **DETERMINATION OF NON-SIGNIFICANCE**

PROPOSAL NAME:	Unico Bellevue Connection
LOCATION:	550 106 <sup>th</sup> Ave NE
FILE NUMBERS:	21-104972 LM
PROPONENT:	Jon O'Hare

**DESCRIPTION OF PROPOSAL:** State Environmental Policy Act (SEPA) threshold determination. The project involves modifications to the Bellevue Connection building and uses. These modifications include interior changes to the second level by enclosing 4,725 square feet of existing open-to-below area and increasing the third level existing mezzanine by 7,299 square feet. This will add a total of 12,024 square feet of new gross floor area to the building. There is no proposed expansion of the existing footprint or vertical increase in height. The modifications also include minor exterior design changes by relocating the private lobby entry from the south side of compass plaza to the west side of the plaza (no change in floor area), and new roof mounted mechanical equipment and screens. Other modifications proposed for the ground floor include changes of occupancy uses from recreation facility to office use and from office use to retail.

The Environmental Coordinator of the City of Bellevue has determined that this proposal does not have a probable significant adverse impact upon the environment. An Environmental Impact Statement (EIS) is not required under RCW 43.21C.030(2)(C). This decision was made after the Bellevue Environmental Coordinator reviewed the completed environmental checklist and information filed with the Land Use Division of the Development Services Department. This information is available to the public on request.

This DNS is issued after using the optional DNS process in WAC 197-11-355. There is no further comment period on the DNS. There is a 14-day appeal period. Only persons who submitted written comments before the DNS was issued may appeal the decision.

**DATE ISSUED:** 4/15/2021

**APPEAL DATE: 4/29/2021** 

A written appeal must be filed in the City Clerk's Office by 5 p.m. on the appeal date noted above.

This DNS may be withdrawn at any time if the proposal is modified so as to have significant adverse environmental impacts; if there is significant new information indicating a proposals probable significant adverse environmental impacts (unless a non-exempt license has been issued if the proposal is a private project) or if the DNS was procured by misrepresentation or lack of material disclosure.

Issued By: for Date: April 15, 2021

Elizabeth Stead, Environmental Coordinator

Mathew Juhn

**Development Services Department** 

21-104972 LM - Unico Bellevue Connection SEPA Review: Kennith George (KMG) 4.7.2021

# SEPA Environmental Checklist

The City of Bellevue uses this checklist to help determine whether the environmental impacts of your proposal are significant. This information is also helpful to determine if available avoidance, minimization or compensatory mitigation measures will address the probable significant impacts or if an environmental impact statement will be prepared to further analyze the proposal.

#### **Instructions**

The checklist asks you to describe some basic information about your proposal. Please answer each question accurately and carefully and to the best of your knowledge. You may need to consult with an agency specialist or private consultant for some questions.

You may respond with "Not Applicable" or "Does Not Apply" only when you can explain why it does not apply and not when the answer is unknown. You may also attach or incorporate by reference additional studies and reports. Please make complete and accurate answers to these questions to the best of your ability in order to avoid delays. For assistance, see <a href="SEPA Checklist Guidance">SEPA Checklist Guidance</a> on the Washington State Department of Ecology website.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The city may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

### **Background**

1.	Name of proposed project, if applicable	
2.	Name of applicant	
3.	Contact person	Phone
4.	Contact person address	
5.	Date this checklist was prepared	
6.	Agency requesting the checklist	

Proposed timing or schedule (including phasing, if applicable)
Do you have any plans for future additions, expansion or further activity related to or connected with this proposal? If yes, explain.
List any environmental information you know about that has been prepared or will be
prepared, that is directly related to this proposal.
Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain.
proposals directly affecting the property covered by your proposal? If yes, explain.
List any government approvals or permits that will be needed for your proposal, if known.
Doet leavener modelene to
Post-Issuance revisions to Clearing & Grading Permit
(20-112983 GD) and Building Permit (20-113522 BB).

12	size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.)
13	Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and the section, township and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist.
	Parcel Number: 1544100256
Envi	ronmental Elements
Earth	
	General description of the site:
	□ Flat
	□ Rolling
	□ Hilly
	□ Steep Slopes
	□ Mountainous
	□ Other
2.	What is the steepest slope on the site (approximate percent slope)?

3.	What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any agricultural land of long-term commercial significance and whether the proposal results in removing any of these soils.
4.	Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe.
5.	Describe the purpose, type, total area and approximate quantities and total affected area of any filling, excavation and grading proposed. Indicate the source of the fill.
6.	Could erosion occur as a result of clearing, construction or use? If so, generally describe.
7.	About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)?

8.	Proposed measures to reduce or control erosion, or other impacts to the earth, if any.
Air	
1.	What types of emissions to the air would result from the proposal during construction, operation and maintenance when the project is completed? If any, generally describe and give approximate quantities if known.
2.	Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe.
3.	Proposed measures to reduce or control emissions or other impacts to air, if any.

#### Water

1.

Su	rface Water
a.	Is there any surface water body on or in the immediate vicinity of the site (including
	year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe
	type and provide names. If appropriate, state what stream or river it flows into.
h	Will the project require any work over, in or adjacent to (within 200 feet) the described
υ.	waters? If yes, please describe and attach available plans.
	waters: If yes, piedse describe and attach available plans.
c.	Estimate the amount of fill and dredge material that would be placed in or removed
	from surface water or wetlands and indicate the area of the site that would be affected.
	Indicate the source of the fill material.
d.	Will the proposal require surface water withdrawals or diversions? Give a general
	description, purpose and approximate quantities, if known.
۵	Does the proposal lie within a 100-year floodplain?
⊂.	·
	If so, note the location on the site plan.
	KMG

4.7.2021

	f.	Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge.
<u>2</u> .	Gr	ound Water
	a.	Will groundwater be withdrawn from a well for drinking water or other purposes? If so, give a general description of the well, proposed uses and approximate quantities withdrawn from the well. Will water be discharged to groundwater? Give general description, purpose, and approximate quantities if known.
	b.	Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, containing the following chemicals; agricultural; etc.). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve.

	Vater Runoff (including stormwater)
a	,
	disposal, if any (include quantities, if known). Where will this water flow? Will this water
	flow into other waters? If so, describe.
b	. Could waste materials enter ground or surface waters? If so, generally describe.
_	Does the proposal alter or otherwise affect drainage patterns in the visibity of the site?
С	
	If so, describe.
	l
Ir	ndicate any proposed measures to reduce or control surface, ground and runoff water,
a	nd drainage pattern impacts, if any.
	KMG
	4.7.20

#### **Plants**

1.	Check the types of vegetation found on the site:	
	□ deciduous tree: alder, maple, aspen, other	
	□ evergreen tree: fir, cedar, pine, other	
	□ shrubs	
	□ grass	
	□ pasture	
	□ crop or grain	
	$\ \square$ orchards, vineyards or other permanent crops	
	$\ \square$ wet soil plants: cattail, buttercup, bulrush, skunk ca	bbage, other
	□ water plants: water lily eelgrass, milfoil, other	
	□ other types of vegetation	
2.	What kind and amount of vegetation will be removed of	or altered?
		No modification of landscaping is proposed under this review.
		Landscaping is associated with 20-114821 LM and 20-110170 LJ.
		20 111021 EW and 20 110170 Ed.
3.	List any threatened and endangered species known to	be on or near the site.
4.	Proposed landscaping, use of native plants or other me	easures to preserve or enhance
	vegetation on the site, if any.	p

٥.	List all floxious weeds and invasive species known to be off or flear the site.	
Anim	als	
1.	List any birds and other animals which have been observed on or near the site or a known to be on or near the site. Examples include:	ire
	Birds: □hawk, □heron, □eagle, □songbirds, □other	
	Mammals: □deer, □bear, □elk, □beaver, □other	
	Fish: □bass, □salmon, □trout, □herring, □shellfish, □other	
2.	List any threatened and endangered species known to be on or near the site.	
3.	Is the site part of a migration route? If so, explain.	
	, , ,	
4.	Proposed measures to preserve or enhance wildlife, if any.	
		1/110
		KMG 4.7.202

5.	List any invasive animal species known to be on or near the site.
Energ	y and Natural Resources
_	What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc.
2.	Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe.
3.	What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any.

#### **Environmental Health**

1.	fire	e there any environmental health hazards, including exposure to toxic chemicals, risk of and explosion, spill or hazardous waste, that could occur as a result of this proposal? If describe.
	a.	Describe any known or possible contamination at the site from present or past uses.
	b.	Describe existing hazardous chemicals/conditions that might affect project development and design. This includes underground hazardous liquid and gas transmission pipelines located within the project area and in the vicinity.
	C.	Describe any toxic or hazardous chemicals that might be stored, used, or produced during the project's development or construction, or at any time during the operating life of the project.

	u.	Describe special emergency services that might be required.
	e.	Proposed measures to reduce or control environmental health hazards, if any.
2.	No	se
	a.	What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)?
	b.	What types and levels of noise would be created by or associated with the project on a
		short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site.
	C.	Proposed measures to reduce or control noise impacts, if any.
	•	The production of the control of the
		Construction noise shall
		comply with the requirements of BCC 9.18

#### **Land and Shoreline Uses**

1.	What is the current use of the site and adjacent properties? Will the proposal affect current and uses on nearby or adjacent properties? If so, describe.
2.	Has the project site been used as working farmlands or working forest lands? If so, describe. How much agricultural or forest land of long-term commercial significance will be converted to other uses as a result of the proposal, if any? If resource lands have not been designated, how many acres in farmland or forest land tax status will be converted to non-farm or non-forest use?
	a. Will the proposal affect or be affected by surrounding working farm or forest land normal business operations, such as oversize equipment access, the application of pesticides, tilling and harvesting? If so, how?
3.	Describe any structures on the site.

4.	Will any structures be demolished? If so, what?			
5.	What is the current zoning classification of the site?	Downtown Office Dis	strict 1 (DT-O-1)	
	What is the current comprehensive plan designation of the site	e?	Designation is "Downtown"	
7.	If applicable, what is the current shoreline master program de	signation of the site?		
8.	Has any part of the site been classified as a critical area by the	city or county? If so,	specify.	
9.	Approximately how many people would reside or work in the	completed project? _		
10	. Approximately how many people would the completed project	displace?		
11	. Proposed measures to avoid or reduce displacement impacts,	if any.		
12	. Proposed measures to ensure the proposal is compatible with	existing and project	ed land	
	uses and plans, if any.			
		Compliance with 20.30F.175 and 20.25A is require	LUC	

13	forest lands of long-term commercial significance, if any.
Hous	ing
1.	Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing.
2.	Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing.
3.	Proposed measures to reduce or control housing impacts, if any.
Aesth	netics
1.	What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed?
2.	What views in the immediate vicinity would be altered or obstructed?

3.	Proposed measures to reduce or control aesthetic impacts, if any	
ht	and Glare	Compliance with LUC 20.30F.175 "Modifica to an approved Design Review project" and LUC 20.25A, the Downtown code, is require
1.	What type of light or glare will the propos	sal produce? What time of day would it mainly
	occur?	
2.	Could light or glare from the finished pro	ject be a safety hazard or interfere with views?
3	What existing off-site sources of light or g	plare may affect your proposal?
٥.	What existing on site sources of light of g	sare may affect your proposal:
4.	Proposed measures to reduce or control	light and glare impacts, if any.
	ation	
1.	What designated and informal recreation	nal opportunities are in the immediate vicinity?
2.	Would the proposed project displace any	existing recreational uses? If so, describe.

3.	Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any.	
Histo	ric and Cultural Preservation	
	Are there any buildings, structures or sites located on or near the site that are over 45 years old listed in or eligible for listing in national, state or local preservation registers located on or near the site? If so, specifically describe.	
2.	Are there any landmarks, features or other evidence of Indian or historic use or occupation? This may include human burials or old cemeteries. Are there any material evidence, artifacts or areas of cultural importance on or near the site? Please list any professional studies conducted at the site to identify such resources.	
3.	Describe the methods used to assess the potential impacts to cultural and historic resources on or near the project site. Examples include consultation with tribes and the department of archeology and historic preservation, archaeological surveys, historic maps, GIS data, etc.	

	Compliance with Inadvertent Discovery regulations required: RCW 27.44.055, 68.50.645 & 68.60.055
ortation	
dentify public streets and highways serving t escribe proposed access to the existing stre	<u> </u>
s the site or affected geographic area current escribe. If not, what is the approximate dista	
low many additional parking spaces would the ave? How many would the project or propos	ne completed project or non-project proposal sal eliminate?
vill the proposal require any new or improve icycle or state transportation facilities, not in	ments to existing roads, streets, pedestrian, acluding driveways? If so, generally describe
	ow many additional parking spaces would the ave? How many would the project or proposed.

5.	Will the project or proposal use (or occur in the immediate vicinity of) water, rail or air transportation? If so, generally describe.	
6.	How many vehicular trips per day would be generated by the completed project or proposal? If known, indicate when peak volumes would occur and what percentage of the volume would be trucks (such as commercial and non-passenger vehicles). What data or transportation models were used to make these estimates?	
7.	Will the proposal interfere with, affect or be affected by the movement of agricultural and forest products on roads or streets in the area? If so, generally describe.	
8.	Proposed measures to reduce or control transportation impacts, if any.	

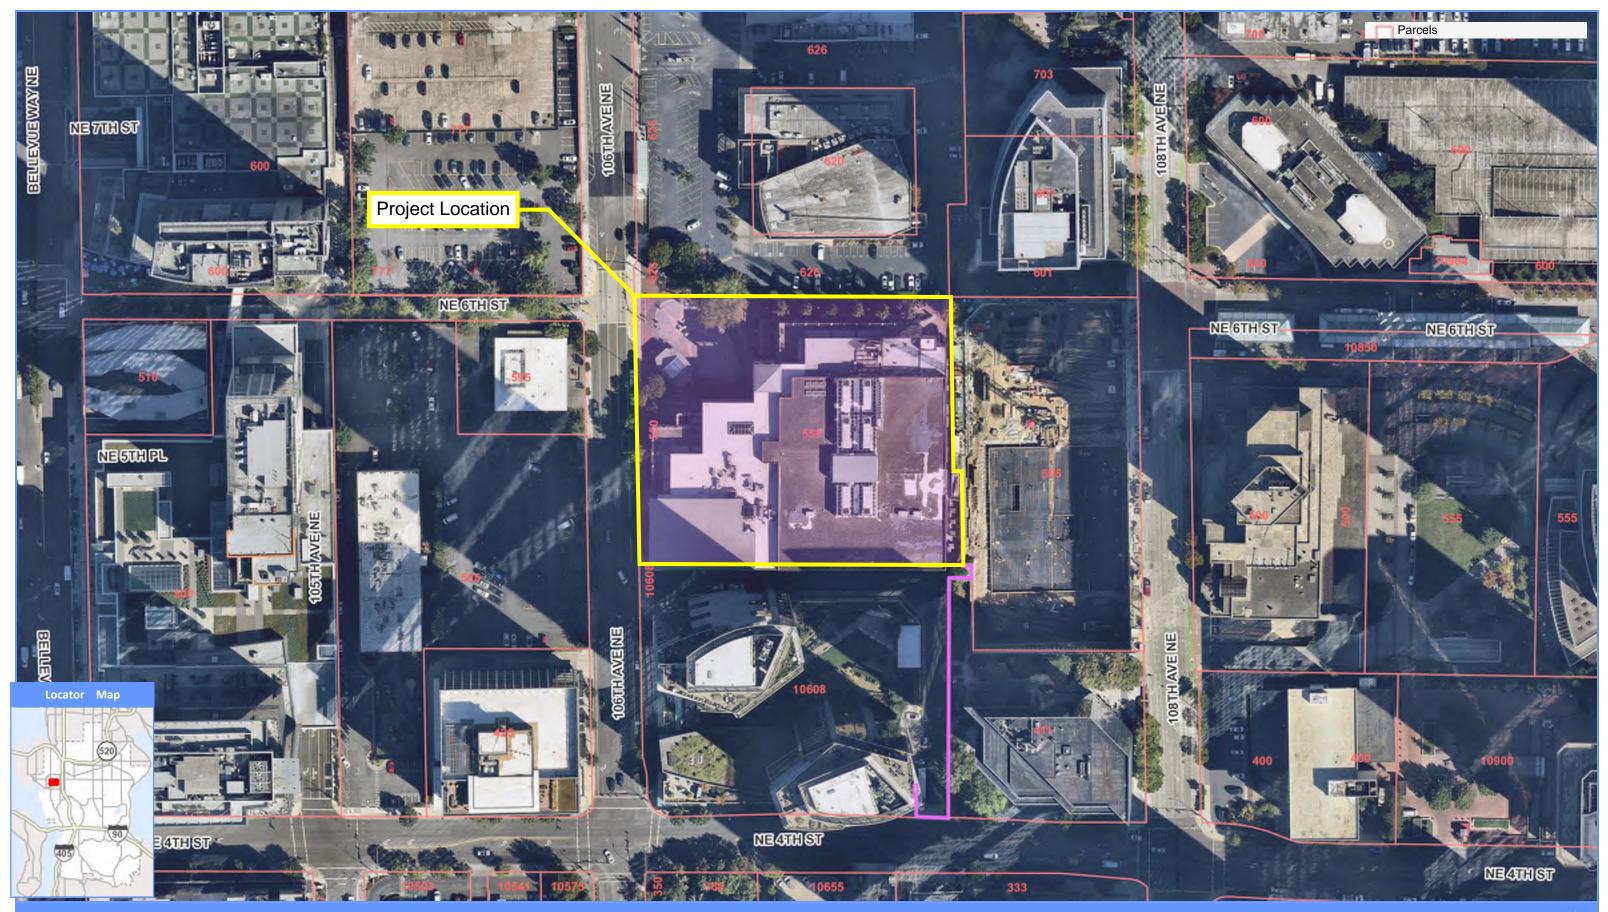

Publi	c Service
1.	Would the project result in an increased need for public services (for example: fire protection, police protection, public transit, health care, schools, other)? If so, generally describe.
2.	Proposed measures to reduce or control direct impacts on public services, if any.
Utiliti	es
	Check the utilities currently available at the site:
	□ Electricity
	□ natural gas
	□ water
	□ refuse service
	□ telephone
	□ sanitary sewer
	□ septic system
	□ other
2.	Describe the utilities that are proposed for the project, the utility providing the service and the general construction activities on the site or in the immediate vicinity which might be

needed.

## **Signature**

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.
